HEALTHCARE YOUR WAY

JOIN THE OAKVILLE EXECUTIVE HEALTHCARE CENTRE AND EXPERIENCE AN INNOVATIVE APPROACH TO HEALTH CARE FOR EXECUTIVES AND INDIVIDUALS THAT SHARE OUR BELIEF IN THE BENEFITS OF:

1. An Integrated Team Approach to Health Care with Multiple Specialists and Care Providers Dedicated to You and Your Family.
2. Second Opinion Services and Association with World Renowned Health Facilities.
3. 24/7 Access to Experienced Providers with Same Day Appointments.
4. At Home Monitoring and Connectivity to the Centre.
5. Annual Comprehensive Health Assessments.
6. Access to Natural Health and Alternative Care Options.
7. The Reassurance of Care in a State of the Art Professional Facility.

1 THE TEAM APPROACH

Our medical team approach is an innovative way to ensure that you are now being cared for by an experienced group of health care providers dedicated to the care of you and your family. This allows for a comprehensive, integrated head to toe approach to health care delivery, with the added benefit of in-house information exchange amongst your health team to provide the best possible care. Your OEHC health team includes:

Internal Medicine Specialist	Exercise Physiologists
Cardiologist	Naturopath
Neurologist	Dietitian
Pediatrician	Nurse Practitioners
Podiatrist	Care Coordinators
Psychologist	Clinical Pharmacist
	Massage Therapist

2 COLLABORATION WITH WORLD RENOWNED PROVIDERS

At OEHC we are partnering with some of world's most recognizable institutions and facilities to offer you access to all levels of care throughout the world. Your medical team will guide you and provide collaborative care in conjunction with specialists at other leading institutions. This integrated approach to partnering with some of the leading institutions in cancer treatment, cardiovascular disease, orthopedics and neurosurgery will ensure that you have all care options presented to you.

3 24/7 ACCESS TO YOUR PROVIDERS

Access to immediate care is a priority. Take advantage of having access to your health team with 24 hour standby coverage every day.

4 AT HOME HEALTH MONITORING

With our next generation remote health management solution you can stay connected at home with your medical team at OECH. The monitoring device allows you to have improved continuous monitoring of your health and tracking of vital signs while remaining right in the comfort of your home. OEHC providers can remotely monitor your vital signs such as blood pressure, heart rate and body temperature through this device. Video teleconferencing features allow you to easily communicate directly with your team for increased care and access. Customizable ongoing health education can be uploaded by our providers remotely to your device to keep you informed with the latest advancements in care.

5 COMPREHENSIVE HEALTH ASSESSMENT AND SCREENING

With a proactive and preventative approach to health care our services include an annual Comprehensive Health Assessment. Your Assessment consists of a thorough medical exam including medical history, pathology, genetic profiling and a series of imaging and diagnostic tests completed on-site using leading edge technology. Your health care team will then collaborate and meet with you to go over all of the results. The emphasis of this assessment is early stage diagnosis and screening as well as providing you and your medical team with a thorough starting point and ongoing map of your health. Genetic analysis is also available for you to uncover your genetic predispositions for a wide variety of health conditions and medication responses. Learning as much as possible about your health and potential risks due to genetics, natural aging and environment will allow you and your team to establish an ongoing preventive approach to your care.

FOR YOUR CHILDREN

Children will also be provided with an annual Comprehensive Health Assessment performed by your team Pediatrician and designed to set the stage for preventative care and ongoing health monitoring at an early age.

6 NATURAL HEALTH CARE OPTIONS

Our natural health care team consisting of Naturopaths, Nutritionists and Weight Management Specialists will provide you with a holistic approach to both preventative health and long term care. This team will ensure that you are aware of alternative approaches to health care while working collaboratively with your entire health care and medical team at OEHC.

7 STATE OF THE ART FACILITY

OEHC has been designed to offer you a comfortable and professional environment for your health care. Using leading edge technology you will have access to onsite diagnostic testing such as 3D Doppler Scanning and Enhanced Electrocardiogram (ECG/ EKG). Electronic medical records and a tablet based charting systems are used to streamline care provider collaboration and create timely efficient reporting capabilities within the centre.
